

Dear California Department of Education

To intelligent everybody.

Please do not bullshit me for a description of the comfort women in textbooks of high school.

Korean bullshit is too severity

Comfort women is not a sex slave. It is profession prostitute.

It will be announced for the Japanese honor.

For factual error Korea prostitution woman

Speaking of how everyone at the time of the comfort women it can be said that the victim, endlessly suspicious.

Because it is a time when there was a licensed prostitution system, look at the recruitment advertising, should pro-there were many who own application.

However, before the girls who were sold to the skilled in the debt, it can be said with the victim.

But the problem is, "Who the victim?", It is a problem that the "What if the victim?".

Whether it can be limited to the "Japanese military victims"? It can be said, "Koreans of skill in the victim",

It can be said, "licensed prostitution system of victims", it also said the "victim of the era of poverty".

Such a dense story, does not lead in the world unfortunately.

Sense of people around the world, much can not be judged only by the stereotype of the good and evil dualism, because low intelligence.

sincenery yours
